

Sky iON

Our Sky iON™ Face Mask features a multi-layer construction with a custom branded outer layer, a middle micro-filter composite layer and an AG+ Silver iON™ inner layer. This provides a filtration performance of >95%, when the mask is new, exceeding the filtration level required by the familiar FFP2 standard. Even after 25 washes the Sky iON Face Mask continues to achieve a filtration efficiency of >90%. The Sky iON™ also features adjustable ear straps and an ergonomic nose bar that can be formed to give a snug fit. Get in touch today regarding branding, prices and delivery information.
